Auditor-General update

Brendan Worrall, Auditor-General

● *Queensland*
● ● **Audit Office**
Better public services

Topical issues

- Local government learnings—culture, skills, oversight
- ICT project risk—such as SPER and the role of gateway reviews

Satisfaction survey for audit committees

Independent (ORIMA Research)

Late May 2019

Questions cover expectations of QAO, audit process, reporting and value

Use the results to improve our engagement

- Invigorating our engagement with audit committees
- Improving our reporting - entity and Parliament
- ↻ Seeking your ongoing input and feedback on our changes

New—Strategic Audit Plan 2019-22 out 20 May

Bringing timing forward for future plans to end of calendar year

Topic to note—Effectiveness of audit committees:

- state government entities, 2019-20
- local government, 2022-23

Potential follow-up report on status of all PA report recommendations

Writing to entities/local governments about recommendation status from reports tabled in 2015-16 and 2016-17

Year end

Are you comfortable with where your entities are?

Impact on audit fees

**Significant investment in data extraction, cleansing and analysis.
Primary goal is to make our audits more efficient and effective**

Our audit testing is now better focused and our conclusions more precise

insights into the effectiveness of key automated controls and insights into risk

Can we reduce audit fees further? Possibly in the longer term BUT there are a number of client dependencies:

- strong IT control environments
- level of automation in the financial and reporting systems
- sophistication of continuous control monitoring activity
- culture

Audit update

Karen Johnson, Assistant Auditor General

● *Queensland*
● ● *Audit Office*
Better public services

What to look for now

Are you on track for smooth year end close processes

- Feedback on proforma statements
- Comfortable with any known accounting issues
- Happy with the result of asset valuations
- Happy with the level of info you've received
- Have you challenged management on what you've received...

We've been working with entities to bring forward audit clearance dates. Are you noticing a difference?

New standards

Do you understand what the impacts are and are you happy entities are prepared?

New fact sheets and blog post—
Assessing financial statement preparation
for state gov't entities 2019.
Preparing position papers

Your auditors are in the process of communicating our feedback and agreement on the positions prepared

What is a good position paper?

- identify the key elements to be included in the paper
- it is prepared by a suitably experienced and qualified officer
- it incorporates alternative positions

Did you know there's a fact sheet on preparing position papers for accounting matters and valuation on our website?

www.qao.qld.gov.au/reports-resources/fact-sheets

**Position
papers**

Are you ready for the new leases standard?

- Do you understand what the new leases standard requires?
- Have you identified all your leases?
- Have you identified the leases exempted under Treasury policies?
 - non-specialised buildings under the QGAO Office Accommodation Management Framework
 - Government Employee Housing program
 - QFleet
- For those leases within the scope of the standard, have you:
 - identified their terms and conditions
 - identified any rental adjustments, such as CPI, market reviews
 - identified which are peppercorn (or concessionary) leases that may have to be fair valued in the future
 - assessed their lease term
 - identified appropriate lease software to use
 - chosen a transition option
 - identified the effect on your results

Are you ready for the new revenue and income for NFP standards?

- Do you understand what the new revenue and income of not-for-profit standards require?
- Have you identified your major sources of revenue and income and determined which standard is likely to apply?
- Are you satisfied that the new concepts of performance obligation, enforceable and sufficiently specific have been correctly applied?
 - we are often encountering different views of whether the sufficiently specific criteria is met in order to defer revenue
- For your position paper, have you documented significant clauses in contracts and explained your reasoning?
- If you are now required to defer revenue, have you:
 - identified any system changes to monitor progress
 - identified how you will calculate opening balances for 1 July 2019

Recent social engineering frauds—@lycos.com

Fraud and corruption in the public sector

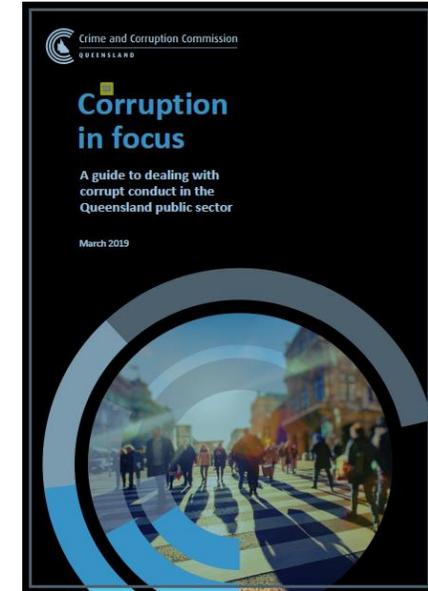

Fraud update

The definition of corrupt conduct (section 15)

This factsheet has been prepared to advise units of public administration (UPAs) about:

- the changes to the *Crime and Corruption Act 2001* that are directly relevant to them
- the actions they must take under the new legislation.

Are you being sceptical enough?

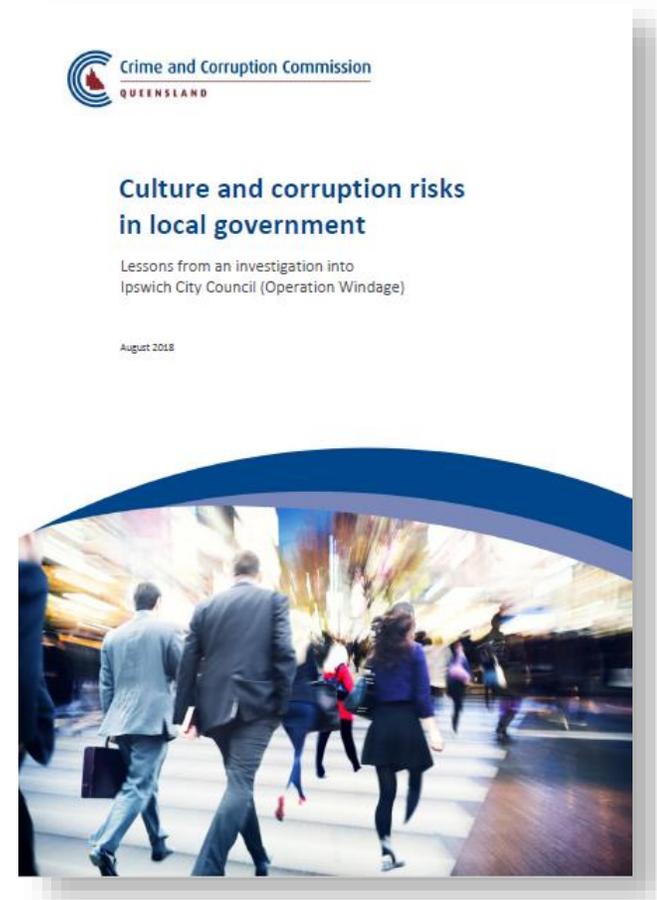

Audit committee chairs should discuss any suspicions of fraud with QAO

Culture and its impact on audit

How do you evaluate the tone from the top?

- Is fraud and corruption reported and discussed?
Detective/preventative/collusion
- Does the entity respect and place importance on internal governance—Internal audit / ethics / compliance and regulatory services
- Actions from whistleblowing (PID)—complacency?
- CFO assurance process
- Remuneration and motivations risk
- Follow up of internal and external audit recommendations

Strategic audit plan

Darren Brown, Director

**Strategic
Audit Plan
2019-22**

On our website 20 May www.qao.qld.gov.au/audit-program

This year, mostly timing shifts and topic refinement

We welcome contributions to our:

- strategic audit plan
- specific audits

Contributions can be made to our staff or via our website on the [audit program page](#) and contact us page

Points to note

We have consulted widely on the topics listed

Tabling year is listed (not commencement)

Performance audits on average take nine months

We:

- provide a high level description of each audit topic
- detail the entities that might be included in the audit

The program is subject to change at any time to reflect new information

How can you use the strategic audit plan?

Identify the audits that might involve your agency or may be of interest.

Ask questions of your agency:

- what does our agency know about the topic itself?
- have reviews been done in this space previously? What did they find? Were recommendations actioned?
- should this be on our internal audit plan?
- how is our performance in this space currently monitored/managed?

Agencies can start to prepare relevant data and information in advance of the audit
