

B. Legislative context

Frameworks

Education entities prepare their financial statements in accordance with the following legislative frameworks and reporting deadlines.

Accountability requirements

The *Financial Accountability Act 2009* applicable to the education sector entities requires them to:

- achieve reasonable value for money by ensuring the operations of the entity are carried out efficiently, effectively, and economically
- establish and maintain appropriate systems of internal control and risk management
- establish and keep funds and accounts that comply with the relevant legislation, including Australian accounting standards.

Queensland state government financial statements

Each year, Queensland state public sector entities must table their audited financial statements in parliament.

These financial statements are used by a broad range of parties including parliamentarians, taxpayers, employees, and users of government services. For these statements to be useful, the information reported must be relevant and accurate.

The Auditor-General's audit opinion on these entities' financial statements assures users that the statements are accurate and in accordance with relevant legislative requirements.

We express an *unmodified opinion* when the financial statements are prepared in accordance with the relevant legislative requirements and Australian accounting standards. We *modify* our audit opinion when financial statements do not comply with the relevant legislative requirements and Australian accounting standards and are not accurate and reliable.

Sometimes we include an *emphasis of matter* in our audit reports to highlight an issue that will help users better understand the financial statements. It does not change the audit opinion.

University and grammar school entities

In Queensland, universities provide tertiary education, including undergraduate and postgraduate studies. Universities and their subsidiaries carry out research and other activities in line with university objectives.

Six of the eight grammar schools provide schooling from Prep to Year Twelve. The other two start at Year Five and Year Seven, respectively.

University funding and regulation

Universities obtain funding mainly through government grants and student fees. Grants are based on student enrolments and the amount of research undertaken at each university.

In Queensland, 86.6 per cent (2019: 84.8 per cent) of university funding comes from Australian and Queensland government grants, and student fees and charges. Federal funding is mainly recurrent, while state government grants are generally non-recurrent.

The Australian Government budget details how much funding is provided to universities for each field of education.

Grammar school funding and regulation

Grammar schools obtain funding through Australian and Queensland government grants, and tuition and boarding fees. In Queensland, 88.3 per cent (2019: 86.6 per cent) of grammar school funding comes from these sources.

The grammar schools are statutory bodies formed under the *Grammar Schools Act 2016*. They operate as independent schools in Queensland.

Departments

Department of Education

The Department of Education is a Queensland Government department established under the *Public Service Act 2008*. It provides direction and oversight to the education sector in Queensland and delivers services for early childhood and education.

Department of Employment, Small Business and Training

The Department of Employment, Small Business and Training is a Queensland Government department established under the *Public Service Act 2008*. The department's vision is for all Queenslanders to have the skills and opportunities to manage and adapt, now and into the future.

Departmental funding and regulation

The departments receive appropriation revenue (allocated by parliament during the budget process) that includes funding from both the Australian and Queensland governments. The departments share this funding across their respective service areas of early childhood education and care, and school education (Department of Education), and training and skills (Department of Employment, Small Business and Training).

In Queensland, 93.6 per cent (2019: 92.6 per cent) of Department of Education funding, and 97.1 per cent (2019: 97.5 per cent) of Department of Employment, Small Business and Training funding came from amounts appropriated by parliament.

Other education entities

TAFE Queensland

TAFE Queensland is the state's largest provider of practical, industry-relevant training. It was established as a statutory body under the *TAFE Queensland Act 2013* on 1 July 2013. It is a not-for-profit entity governed by an independent board.

Its income is largely attributable to training revenue received from students. In recognition of TAFE Queensland's cost disadvantage in the market (having to provide non-profitable courses), the Queensland Government provides a state contribution grant, which funds part of the difference in costs between public and private training providers.

Queensland Curriculum and Assessment Authority

The Queensland Curriculum and Assessment Authority is a statutory body that was established on 1 July 2014 under the *Education (Queensland Curriculum and Assessment Authority) Act 2014*, replacing the Queensland Studies Authority. It provides the syllabuses for all schooling from Kindergarten to Year 12. It also provides guidelines, assessment, reporting, testing, and certification services for Queensland schools. It revises syllabuses and guidelines and offers services and resources to help teachers implement them.

Most of its income comes from grant funding from the Queensland Government approved through the state budget process.

Queensland College of Teachers

The Queensland College of Teachers is responsible for registering teachers for Queensland schools, and for providing accreditation for preservice teacher education programs. It is a statutory body established under the *Education (Queensland College of Teachers) Act 2005* to ensure teachers meet Australian education standards and act ethically.

The biggest contributors to the college's income are its teacher registration and application fees.

Non-State Schools Accreditation Board

The Non-State Schools Accreditation Board works with non-state governing bodies in the areas of accreditation and funding eligibility. The board is a statutory body established under the *Education (Accreditation of Non-State Schools) Act 2001*.

While the board receives grant funding, most of its income is from corporate services the Department of Education provides, which it recognises at the value it would have paid for the service if it had to pay.
