

# ABOUT US

---

On behalf of the Auditor-General, we provide insights to hundreds of state and local government clients on how to deliver better public services for Queenslanders. As the state's independent auditor, we are vital to Queensland's integrity system, giving parliament and the public trusted assurance.

Innovation, teamwork and relationships are at the heart of what we do. We use some of the most contemporary practices and tools in today's professional services industry to:

- deliver high quality audit services
- give the public sector insights on their performance, risks and financial management
- report to parliament on the results of our work
- investigate financial waste and mismanagement
- share best practice across our client base and industry.

Four core values underpin our culture: *engage, respect, inspire* and *deliver*. We deliver our services as a team, and empower our staff to be the best in their field. Our vision is for better public services for Queenslanders.

**'QAO is a place where I can see myself working long-term and building my career.'**

**The graduate program is everything I could have hoped for.'**

## GRADUATE PROGRAM

---

BETTER PUBLIC SERVICES

# OUR GRADUATE PROGRAM

QAO's graduate program offers you the opportunity to work across all areas of our audit and assurance business. With exposure to all of our clients and services, you will learn and apply a broad range of audit and engagement skills every day. You will also work throughout our beautiful state of Queensland.

As a graduate at QAO you will gain a deep understanding of government service delivery. Our mandate and our independence give us access to information across the entire public sector.

Are you ready to apply everything you learned at university and help us achieve better public services for Queensland? Become part of an exciting professional services team that has the opportunity to create change.

**'QAO has given me the opportunity to learn and grow in an environment where everyone is eager to help you succeed.'**

— Eliza Blanch  
Graduate Auditor

**Meaningful and diverse work opportunities.**

**Training, support, and development opportunities.**

**Highly-skilled, enthusiastic, and professional colleagues.**

**Competitive salary and benefits, and intrastate travel.**

## START YOUR CAREER WITH US

QAO's graduate program is the first step toward a challenging and rewarding career.

Our workforce is critical to us achieving our vision. Our graduates receive hands-on experience and comprehensive training.

## WHY APPLY?

QAO is an exciting place to work, as we strive to improve how we do business and create innovative solutions. We invest in advanced audit capabilities (such as data analytics and information systems risk), modern technology, training, and support.
