

## H. Entities not preparing financial reports

For each state public sector company, other than government owned corporations, the board of directors considers the requirements of the *Corporations Act 2001* and the company's constitution to determine whether financial statements need to be prepared. The board must revisit the assessment every 3 years or whenever a significant change occurs.

When entities are part of a larger group and are secured by a guarantee with other entities in that group (that they will cover their debts), the Australian Securities and Investments Commission allows them to not prepare a financial report. In addition, dormant or small companies that meet specific criteria under the *Corporations Act 2001* are not required to prepare financial statements.

If entities form part of a larger group that reports to the Australian Charities and Not-for-profits Commission, the commissioner may allow the group to jointly report under subsection 60–95 (1) of the *Australian Charities and Not-for-profits Commission Act 2012*.

Accordingly, the Auditor-General will not issue audit opinions for the following controlled public sector entities for 2023, as they were not required to produce financial statements.
