Accountability requirements

The *Financial Accountability Act 2009* applicable to state sector entities requires these entities to:

- achieve reasonable value for money by ensuring the operations of the entity are carried out efficiently, effectively, and economically
- establish and maintain appropriate systems of internal control and risk management
- establish and keep funds and accounts that comply with the relevant legislation, including Australian accounting standards.

Queensland state government financial statements

Each year, Queensland state public sector entities must table their audited financial statements in parliament.

These financial statements are used by a broad range of parties including parliamentarians, taxpayers, employees, and users of government services. For these statements to be useful, the information reported must be relevant and accurate.

The Auditor-General's audit opinion on these entities' financial statements assures users that the statements are accurate and in accordance with relevant legislative requirements.

We express an *unmodified opinion* when the financial statements are prepared in accordance with the relevant legislative requirements and Australian accounting standards. We *modify* our audit opinion when financial statements do not comply with the relevant legislative requirements and Australian accounting standards and are not accurate and reliable.

There are 3 types of modified opinions:

- qualified opinion – the financial statements as a whole comply with relevant accounting standards and legislative requirements, with the exceptions noted in the opinion
- adverse opinion – the financial statements as a whole do not comply with relevant accounting standards and legislative requirements
- disclaimer of opinion – the auditor is unable to express an opinion as to whether the financial statements comply with relevant accounting standards and legislative requirements.

Sometimes we include an *emphasis of matter* in our audit reports to highlight an issue that will help users better understand the financial statements. It does not change the audit opinion.
