

ABOUT US

The Queensland Audit Office (QAO) is the independent auditor of the Queensland public sector. Through our financial and performance audits, we give the public confidence in the reliability of government financial statements and operating performance.

We make recommendations that promote improvements in public service delivery and share insights on better ways of doing business. Our mandate gives us visibility across the entire public sector of matters impacting performance. We provide independent, valued assurance.

Our culture is underpinned by four core values, which inform how we work with our clients and within our teams. They are: we *engage* with purpose, we *challenge* ourselves, we *deliver* on our commitments, and we *care* about people.

Our vision is for better public services for Queenslanders. We strive to work with our clients and use our unique position to achieve this vision.

**As a graduate
with QAO, you'll be
helping to improve
public services for
Queenslanders.**

GRADUATE PROGRAM

OUR GRADUATE PROGRAM

Ready to put the knowledge you learned at university into practice? Want to be supported through a comprehensive graduate program? Interested in using leading-edge technology? Want to help improve public services for Queenslanders? Then join the unique world of public sector auditing and engagement.

As a graduate at QAO you will gain a deep understanding of government service delivery. Our mandate and our independence give us access to information across the entire public sector.

You will work across various areas of the business and gain broad exposure to our clients, services, and work locations throughout Queensland. You will learn and apply a broad range of audit and engagement skills every day.

‘The best learning experience I could have asked for.’

— Nicholas Dow
2018 Graduate Auditor

Thought-provoking and diverse work.

Training, support, and development opportunities.

Highly-skilled, enthusiastic, and professional staff.

Competitive salary and benefits, and intrastate travel.

START YOUR CAREER WITH US

A QAO graduate position is the first step toward a challenging and rewarding career.

We invest in advanced audit capabilities, such as data analytics, and we use modern information technology and communications.

WHY APPLY?

We are innovative, challenge ourselves, and continually strive to improve how we do business.

We value our graduate program, and invest in it to ensure our graduates receive superior training and hands-on experience.

WHAT NEXT?
